

# BAUK Greyhope Bay 2025

In the first half of the year, BAUK, in collaboration with Greyhope Bay, delivered impactful community and educational initiatives aimed at fostering environmental awareness and conservation. The team organised school visits, university and community talks, a Festival of Ideas, free community sessions on local marine life, and three beach cleans. The activities expanded to include additional free educational talks, school and youth group visits, outdoor nature events, six more beach cleans (including for protected groups), and the onboarding of a community engagement intern. The programme strongly aligns with the UN Sustainable Development Goals, particularly SDG 4 (Quality Education), SDG 11 (Sustainable Cities & Communities), SDG 13 (Climate Action), SDG 14 (Life Below Water), and SDG 15 (Life on Land).
