

The Grow Project – Zoo Negara Malaysia

Bumi Armada organised The Grow Project on 30th October 2025 at Zoo Negara Malaysia. A total of 30 employee volunteers came together to contribute to the enrichment of the zoo's landscape, planting 120 plants near the Malayan Tiger exhibition. The selected species, *Goeppertia Majestica* 'Albo Lineata', *Goeppertia* 'Sanderiana' and *Monstera Deliciosa* Liebm, were chosen for their resilience and ability to enhance biodiversity within the area.

This initiative reflects our commitment to environmental stewardship and aligns with the United Nations Sustainable Development Goals (SDGs), particularly SDG 13 (Climate Action) and SDG 15 (Life on Land).
