

PT AGN - Internship Collaboration with University of Brawijaya

As part of PT Armada Gema Nusantara (AGN) commitment to developing young talent and strengthening industry-academia collaboration, the Company established an Internship Collaboration Memorandum of Understanding (MOU) with University of Brawijaya. Following the interview and selection process, eight students were selected to participate in the internship programme with PT AGN. The students were placed across various departments to gain practical industry experience. Two students joined the Technical team in Jakarta from November 2025 to February 2026, while six students commenced their internship from February 2026 to April 2026 across Supply Chain Management (SCM), Human Resources (HR), Health, Safety and Environment (HSE) and Technical teams.

Through this collaboration, PT AGN continues to support talent development and provide valuable learning opportunities for future professionals. The programme is aligned with the United Nations Sustainable Development Goals (SDGs), particularly SDG 4 – Quality Education.
