

Duty of Care Ambassador Award 2026

The International SOS Foundation's *Duty of Care Awards* recognise organisations and individuals who demonstrate exceptional commitment to protecting health, safety, security and wellbeing of their workforce. Among the categories, the **Duty of Care Ambassador Award** honours individuals who go above and beyond in driving leadership, championing initiatives and embedding a strong culture of care within their organisations.

We are proud to share that our very own VP HSE, **Gary Leong**, was named **Runner - Up for the Duty of Care Ambassador Award in 2026**. This recognition highlights his outstanding leadership and unwavering dedication to strengthening HSE practices and fostering a culture focused on people and resilience across the organisation.
