Bumi Armada Berhad FoodShare 2026

From 14 August to 30 September 2026, Bumi Armada Berhad's Sustainability & External Relations Department, in collaboration with The Lost Food Project (TLFP), brought employees together through Bumi Armada FoodShare 2026, an initiative that embodies the spirit of giving, sharing and caring for communities and animals in need.

Thanks to the generosity and collective efforts of our colleagues, the initiative gathered 572 kg of essential food items and 144 kg of pet food, with the food donations equivalent to 1,634 meals. Beyond these figures lies a meaningful expression of kindness, compassion and solidarity, demonstrating how small acts of generosity can make a positive difference in the lives of others. Bumi Armada FoodShare 2026 reflects our continued commitment to creating a positive social impact and advancing the United Nations Sustainable Development Goals (SDGs), particularly SDG 2: Zero Hunger and SDG 12: Responsible Consumption and Production.
